

About

Kryonet Hungary Ltd. (Kryonet Magyarország Kft.) was founded in 2004 by Hungarian citizens. Its main focus of activities are software development and system maintenance, IT consulting and project management.

Our activities are organized into three business divisions:

- Development and system maintenance Division
- IT Consulting Division
- Project Management Division

Since its foundation Kryonet Hungary has expanded its services while increasing revenues. Along the road we have paid extra attention to keep the standards of our services high. To this end Kryonet introduced and certified its ISO Quality Assurance System in 2006 for all major activities.

Kryonet strives to operate in a project-oriented manner. Our expertise in project management supports our client assignments as well as internal projects.
